PROBLEM STATEMENT

- Students lack a proper digital platform to showcase their skills.

- Traditional resumes fail to highlight creativity and projects.

- Lack of customization limits personal branding.

- A need exists for an attractive,interactive, and professional Portfolio.

PROJECT OVERVIEW

- A personal portfolio website created for college students.

- Displays academic background, skills , amd Project.

- Built using HTML, CSS, and JavaScript.

- Helps students showcase their abilities to recruiters.

END USER

- College student preparing for placement.

- Fresh graduates applying for jobs.

- Professor or mentor evaluating students work.

- Clients looking for developers/designers.

- Anyone wanting a professional online presence.

TOOLS AND TECHNOLOGIES

- HTML-for website structure.

- CSS-for styling and Layout.

- JAVASCRIPT –for interactivity.

- VS CODE-for development.

- GITHUB-for version control.

- BROWSER DEVTOOLS-for debugging.

PORTFOLIO DESIGN AND LAYOUT

- A simple and professional home page.

- Header with navigation menu.

- Project showcase with images and description.

- Contact section with deatails or form.

- Responsive Layout for all devices

FEATURES AND FUNCTIONALITY

- Interactive navigation bar

- Smooth scrooling between sections.

- Hover and animation effects.

- Contact form with validation.

- Project gallery with the screenshot.

- Mobile friendly Design.

- Fast and lightweight performance .
